

A collection of 18 circular icons arranged in three rows. The first row has four icons: a green circle with a white lightbulb and a leaf, a brown circle with a white horizon line, a grey circle with a white lightbulb, and a blue circle with a white flag. The second row has six icons: a green circle with a white house and solar panels, a green circle with a white tree, a grey circle with a pink flower, a grey circle with the text 'Jul' in orange, a grey circle with the text 'Jun' in orange, and a grey circle with a green plant growing from a base. The third row has eight icons: a brown circle with a white flower, a purple circle with a white bee, a purple circle with a white butterfly, a purple circle with a white recycling symbol, a purple circle with a white gear and leaves, a purple circle with a white diagonal slash, and a purple circle with a white trash can.

"Summer Bells" er et lille træ eller en busk (moden højde 3-8 m), som er en hybrid mellem *Chilopsis linearis* og *Catalpa bignonioides*. Bladene er aflange og smalle. *Chitalpa tashkentensis* 'Summer Bells' blomstrer overdådigt med orkidélignende, lyserøde blomster med gul hals, blomstrer juni-august og dufter sødt. Blomstringen starter tidligt på sommeren og varer ca. 2-3 uger. En anden blomstring følger i midten af august. *Chitalpa* vokser bedst i fuld sol i veldrænet jord. Modtagelig for meldug i fugtigt vejr. Tiltrækker bier og sommerfugle. *Chitalpa* er ret sjælden og derfor ikke bredt tilgængelig.
